It's County Fair time again!

The 192nd Steuben County Fair will be held August 16 -21, 2011 at the Steuben County Fairgrounds in Bath, New York. This is the oldest continually running county fair in the United States! For more details on fair week, [visit the county fair website](#).

For Cornell Cooperative Extension, fair week means show time! 4-H members have been hard at work all year preparing animals and exhibits to display at county fair. The CCE-Steuben staff members will be manning three locations to connect their work to the public:

The **4-H Building** houses the youth exhibits and numerous activities such as Veggie Art, Creative Cake, Flower Arranging and Creative Place Setting Contests. The Dairy Princess will be there with dairy information and milk for sale. *(See more info under 4-H news below)*

The **Agriculture Building** houses information on local foods, a test your farm knowledge game (do you know how many cows there are in Steuben County?), and the Master Gardeners will do soil pH testing.

And **under the grandstand**, we will be showcasing 100 years of Cooperative Extension in New York State. Check out our visual timeline...follow the energy path to savings...and learn about the new MyPlate nutrition guide. For details, visit www.putknowledgetowork.com.
