## Head Start Program

*Pro Action of Steuben and Yates, Inc.*

The Head Start Program is starting its annual recruitment campaign for the 2023-2024 school year. For those of you who are not familiar with the program, Head Start is a comprehensive curriculum-based program designed to help children develop their school readiness skills in a nurturing and creative environment.

During the recruitment period, Pro Action likes to notify partners and programs such as yours of their campaign, and encourage your staff to make referrals to this program.

The selection process usually takes place between May and June.

## "Ounce of Prevention"

*Steuben Prevention Coalition*

Message to Coalition and Community Members:

The Coalition was represented at the 2023 SAM (Smart Approaches to Marijuana) Summit & Good Drug Policy Conference on April 20, 2023, in Washington, DC. and a key take away from this event was that there has been a massive rise in Cannabis Use Disorder among youth ages 12-17 by 145% from 2018 – 2021. We have a long way to go in our fight against this danger to our youth!

## Grant Opportunity

### Mary Vohar Lilley Community Impact Grants

The American Heart Association invites organizations in need of Cardiac Emergency Response Planning (CERP) and AED placement in Steuben County and surrounding communities to apply to the [Mary Vohar Lilley Community Impact Grants](#) as part of the Association's mission to create a nation of Heartsavers. A Cardiac Emergency Response Plan is a written document that establishes the specific steps to reduce death from cardiac arrest in any setting – be it a school, community organization, workplace, or sports facility. Only about 40% of people who experience an out-of-hospital cardiac arrest receive the immediate help that they need before professional help arrives. When a person has a cardiac arrest, survival depends on immediately receiving CPR from someone nearby. Immediate CPR and use of an AED can **double, or even triple**, survival rates.

**Community Response (CPR):** Proposals to include a focus on intervention strategies including early recognition and initiation of CPR and appropriate use of Automated External Defibrillators (AEDs). Proposals must demonstrate a community driven approach and community representation in planning and execution. Organizations applying for an AED placement grant must also be able to commit to the development of a Cardiac Emergency Response Plan (CERP) and training designated safety staff.

Priority will be given to proposals that directly benefit the City of Corning, NY and Steuben County. All funds from Mary Vohar Lilley Community Impact Grants are restricted for use within Steuben County, Allegany County, Chemung County, Schuyler County, Yates County, and Livingston County. Applicants must have 501(c)(3) status or have a partner 501(c)(3) organization that agrees to be the fiscal agent for the Community Impact Grant. If you have any

questions about eligibility, please contact Lisa Neff, [lisa.neff@heart.org](mailto:lisa.neff@heart.org).

## **RESILIENCE: THE BIOLOGY OF STRESS**

**& THE SCIENCE OF HOPE** chronicles the birth of a new movement among pediatricians, therapists, educators and communities, who are using cutting-edge brain science to disrupt cycles of violence, addiction and disease.

*Produced by KPJR Films, Directed by James Redford*

*"Not only does unmitigated toxic stress put kids at risk of health problems, it also makes it more likely for them to settle into destructive behavior. That's why it is crucial to help families get off to the right start, because the farther back you go, the more profound the benefits of an intervention can be."*
